

# **Petition to the House of Commons – West Coast Wild Salmon Protection**

We, the undersigned residents of Canada, draw the attention of the House of Commons to the following:

**WHEREAS:**

- 1. Canada can become a world leader in safe and reliable closed containment fish farming on the West Coast;
- 2. West Coast wild salmon are under threat from sea lice, pollutants, and diseases originating from open net-cage fish farms;
- 3. Over 9,000 family supporting jobs, coastal communities, cultural traditions, and complex ecosystems depend on a healthy West Coast wild salmon population;
- 4. Fin Donnelly, MP Port Moody-Coquitlam, introduced Bill C-228, An Act to amend the Fisheries Act (closed containment aquaculture), requiring West Coast finfish aquaculture to transition from harmful open net-cage fish farms to safe and reliable closed containment facilities which protects West Coast wild salmon.

THEREFORE we the undersigned, call upon the House of Commons to protect West Coast Wild Salmon by supporting Bill C-228.
